Product Description

Off-road tent wall-mounted motorhome with large sleeping area and powerful independent suspension system

appearance

We developed our own custom-designed trailing arm that allows each wheel to move independently, allowing for a smoother, more stable ride, whether on the highway or on rough terrain. Our quad suspension design spreads the load across four shocks instead of two, resulting in a smoother ride, safer operation, and longer suspension life.

Our Product Introduction

Indoors

Backed by a rugged appearance and superior performance. This makes the trailer sturdy and durable. With custom-designed and manufactured independent suspension and galvanized hammered powder-coated towbars, the escort can handle all types of rough terrain. With a built-in kitchen and a stovetop with three burners, the exterior stainless steel kitchen is any chef's dream. The whole car has enough storage space to accommodate any equipment you might need for any long journey, including a spacious pull-out compartment that can accommodate any 12v refrigerator and is equipped with an in-drawer power outlet. Its galvanized chassis and kneaded rubber seals avoid harsh environments and perform well all year round.

Comfortable, easy and quick to set up

The Navigator comes with a large sleeping area and seating for the whole family. The seating area can also be easily converted into a comfortable mattress, providing a quiet sleeping environment for the whole family. Built-in LED lighting allows the festivities to continue in the evening. Multiple mesh windows allow fresh air to circulate through the tent, allowing you to camp with peace of mind and enjoy the beauty and purity.
