### Product Description

Adventure Trailers, Mobile Camping Bases, Outdoor Adventures, ATVs, Off-Road Trailers, Independent Suspensions

With an impressive carrying capacity, the Alpha is the ideal campervan for large families or long trips. This trailer is sturdy, practical and ready for your journey. Custom-designed and manufactured independent suspension and galvanized coated towbar to handle the roughest terrain.

Our Product Introduction

#### Suspension system

Has the most powerful independent suspension system. We have developed our own custom-designed trailing arm that allows each wheel to move independently for a smoother, more stable ride, whether on the highway or on rough terrain. Our quad suspension design spreads the load across four shocks instead of two, resulting in a smoother ride, safer operation, and longer suspension life.

#### appearance

Large powder-coated kitchen with built-in cistern and built-in sink with plenty of space for cooking a big meal. There's plenty of storage space throughout the place to hold any equipment you need for an adventure of any length, including large drawers to hold any gear you might need. A large forward-mounted toolbox and huge tent storage provide plenty of space. Its galvanized chassis and kneaded rubber seals are designed to withstand harsh environments, keeping them unaffected all year round.

#### indoors

Alpha comes with a large 12-foot tent with a built-in sleeping platform and convertible sofa and bed space for up to 5 people to get a comfortable night's rest. Heavy duty canvas tents can withstand harsh environments such as high temperatures, rain, bugs, etc.

#### Comfortable, easy and quick to set up

A simple setup for two people takes less than 8 minutes to complete. The additional trailer attachment gives you plenty of space for a truly seamless indoor-to-outdoor life, even in the most remote locations.

The clever design allows you to enjoy plenty of living and sleeping space.

Easy to allocate space to keep all your gear tidy and easy to use.

Full 360° rotation and unmatched clarity mean you can tackle even steep slopes.

The 100AH 12v battery keeps you powered on even in remote areas.

Long journeys are allowed without supplies.

What makes your trailer usable is clean solar energy that makes camping easy.

We are a production and trading company, you can tell us your needs, target products, suggestions or opinions, we will carry out a full range of customized services according to your description
