Product Description

Hardtop Camping Caravans, Hardtop Off-Road Motorhomes, All-Terrain Caravans, Off-Road Campervans, RV Outdoor

Adventures

Like a Swiss Army knife, the C12 is equipped with a kitchen, toilet and shower room for a family of 3 people. This compact design is perfect for weekend campers who want to embark on an adventure.

Suspension system

Has the most powerful independent suspension system. We have developed our own custom-designed trailing arm that allows each wheel to move independently for a smoother, more stable ride, whether on the highway or on rough terrain. Our quad suspension design spreads the load across four shocks instead of two, resulting in a smoother ride, safer operation, and longer suspension life.

appearance

The C12 is designed to be more compact and lightweight, with the same rugged appearance as other higher-spec series. Still with our revolutionary independent suspension, the latest in our flagship range can handle all off-road situations while offering a more compact, streamlined look for easy towing and parking. It is 8 feet high x 7 meters wide x 16 meters wide and can be parked in some garages.

indoors

Somehow, we were able to pack all the same features of our premium touring trailer line into a single 12-foot hardtop trailer. A family of three can have plenty of space while having all the amenities you'd expect in a black caravan.

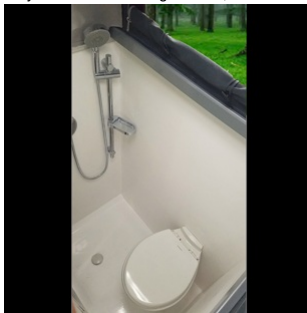

The small footprint and concealed design allow the car to be parked in most residential garages

The clever design allows a family of four to enjoy plenty of living and sleeping space.

All homely comforts including kitchen, toilet and shower.

Our foldable tables and beds are designed for entertainment during the day and comfortable rest at night.

2 x 150w rooftop mounted solar panels can charge the included 2 x 100ah deep cycle batteries and are available anytime, anywhere.

We are a production and trading company, you can tell us your needs, target products, suggestions or opinions, we will carry out a full range of customized services according to your description
