Our Product Introduction

#### Suspension system

Has the most powerful independent suspension system. We have developed our own custom-designed trailing arm that allows each wheel to move independently for a smoother, more stable ride, whether on the highway or on rough terrain. Our quad suspension design spreads the load across four shocks instead of two, resulting in a smoother ride, safer operation, and longer suspension life.

#### appearance

It has a stand-alone suspension design that stands out from the rest. The design has been adapted to a dual-axle design to help distribute weight more evenly and maintain a smooth, stable ride for safer traction. , the biggest, the greatest travel trailer. Plates with bottom reinforcement and a crash-proof bar to maintain its beauty in rough road conditions.

#### indoors
